PROFILE SUMMARY

Motivated and meticulous Computer Science student majoring in Web and App Development, with over a year of hands-on experience as a Front-End Web Developer and open source project on Android app development with Java. Focused on building innovative digital solutions, with a strong interest in establishing a career as a Web, App, or Software Developer. Skilled in designing and managing user-focused, responsive websites using platforms like Wix and WordPress, complemented by experience in software testing and documentation from a role as an IT System Tester. This experience has strengthened problem-solving abilities and attention to detail, ensuring high-quality development processes. Currently studying at Goldsmiths, with flexibility for full-time opportunities to apply technical skills and grow professionally in tech environment.
